---

Contact: Kevin Barnes, Director

Number 20

Released: December 31, 2004

### **The USDA's Virginia Agricultural Statistics Service (VASS) will conduct the Commercial Floriculture Survey at the beginning of 2005 for the reference year 2004**

This survey will be used to produce reliable data on key items such as area of production, product sold, and value of sales. Leaders from the floriculture industry encourage your participation in this survey, knowing it is crucial to have accurate statistics for their industry. Results from the Commercial Floriculture Survey are scheduled for release on April 26, 2005.

NASS works with growers and producers to provide meaningful, accurate, and objective statistics that help keep U.S. agricultural industries informed. Growers gain important benefits from providing their responses to this survey. The results are official USDA estimates and will help ensure information is available to the public and the industry on commercial floriculture production. Summarized results help measure the economic contribution of the floriculture industry to the U.S. economy and will provide accurate industry statistics that will be crucial to obtaining research funding and government support on various issues.

"We safeguard the confidentiality of all survey responses," said Kevin Barnes, Director, Virginia Ag Statistics. "Data from individual operations are combined with other responses to provide the needed data. We will not disclose any data about an individual operation."

You can view commercial floriculture statistics on the NASS Homepage at [www.usda.gov/nass](http://www.usda.gov/nass). For additional information, e-mail [nass@nass.usda.gov](mailto:nass@nass.usda.gov) or call 1-800-727-9540. To order a printed copy of any NASS report, call the NASS Order Desk at 1-800-999-6779.
